I just wanted to drop a note and thank you for offering such a great program to help with baseball. Chase loves the baseball program and can't wait to play each week. He is learning so much and has improved greatly using the techniques you use. He talks about the alligator, goal post and squish the bug all the time. It's great how the coaches use fun, simple instructions to help engage the kids and teach them fundamentals of baseball. All the coaches are always so encouraging. Chase feels so proud when he leaves each week. Ultimately, he has so much fun in the classes, but he is also learning to listen and follow coaches instruction, gaining confidence, and seeing how well he can do something with practice. Our goal was to enroll him in the program so he would be better prepared for playing on a tball team. We have enjoyed continuing with the program and watching his progress along the way. We haven't found many opportunities for 3 and 4 year olds to get started in sports activities. This program is the BEST and all the coaches and staff are incredible and always make your "L'il D" ball player feel special.

Thanks for all you do,

Angie Smith
