*Family Consulting for the
Prospective College Athlete*

THE PREFERRED ATHLETE PROGRAM was created to provide a proactive marketing plan and support system for the high school athlete whose goal is to earn a scholarship in his/her sport. The Preferred Athlete Program should not be grouped with all of the "web-based" college placement & recruiting services of today. We are much more than that! We are a consulting service that provides personal, credible, and ongoing support to the family and to the athlete who qualifies for the Preferred Athlete Program.

Our goal is not only to help the athlete obtain a scholarship, but to also find the school that is athletically, academically, and socially compatible.
